ABSTRACT

Results of the 1979-80 Survey of Voluntary Support of Education are presented, along with national estimates of voluntary support of higher education. For 180 core institutions reporting in both 1978-79 and 1979-80, it was found that: (1) total support grew 18.1 percent in contrast to the 6.1 percent gain reported for the core group in 1978-79; (2) support for public four-year institutions increased faster in 1979-80 and since 1974-75 than support for private four-year colleges and universities; (3) gifts from corporations increased 25.1 percent; and (4) support for physical plant maintenance and expansion rose 23.9 percent, more than for any of the other purposes. For all institutions reporting in 1979-80, it was found that: the changes reported by all respondents are very similar to the patterns of the core group; bequests and deferred gifts declined in importance as sources of support from individuals; and the average alumnae gift to the annual fund at women's colleges increased by 14 percent in 1979-80 and has grown at a faster average annual rate since 1968-69 than for all other types of colleges. National estimates of voluntary support of higher education indicate that: total voluntary support rose $570 million in 1979-80 to an estimated $3.8 billion; the year-to-year growth of 17.6 percent outpaced inflation; and business corporations contributed 18.3 percent of total voluntary support and a 25.2 percent increase in their grants. Data are provided by type of institution, and private secondary and elementary schools are involved. (SW)

VOLUNTARY SUPPORT OF EDUCATION

1979-80

Prepared by the Council for Financial Aid to Education and jointly sponsored by the Council for Advancement and Support of Education, the Council for Financial Aid to Education and the National Association of Independent Schools.

HE 014 762

Highlights

Higher Education

National Estimates of Voluntary Support of Higher Education indicate that

- Total voluntary support rose $570 million in 1979-80 to an estimated $3.8 billion
- The year-to-year growth of 17.6 percent outpaced inflation
- Business corporations contributed a record 18.3 percent of total voluntary support as a result of a 25.2 percent increase in their grants
- Funds contributed for maintenance of and addition to physical plant grew by 28.8 percent

Reports from Participating Institutions show that

- Support for public four-year institutions increased faster in 1979-80 and since 1974-75 than for private four-year institutions
- Bequests and deferred gifts declined in importance as sources of support from individuals
- The average alumnae gift to the annual fund at women's colleges increased by 14 percent and has grown at a faster average annual rate since 1968-69 than for all other types of colleges

Private Secondary and Elementary Schools

Voluntary Support of Independent Schools increased modestly for the second year in a row

- Support for the 278 schools reporting in both 1978-79 and 1979-80 grew by 7.9 percent, not enough to keep up with inflation
- Percentage changes varied both up and down by donor type and purpose

Additional copies at $14.00 per copy prepaid are available from the Council for Financial Aid to Education, 680 Fifth Avenue, N.Y., N.Y. 10019.

The Survey Report was prepared by the CFAE Division of Research. May 1981

A grant from the Reader's Digest Foundation assisted CFAE in meeting the costs of producing this survey.

Preface

This twenty-first *Survey of Voluntary Support of Education* has been jointly sponsored by the Council for Financial Aid to Education, the Council for Advancement and Support of Education, and the National Association of Independent Schools, with the cooperation of several other national organizations. It is the latest in a series of studies of educational philanthropy dating from 1954-55.

The definitions used in the 1979-80 survey are the same as those used in 1978-79 and prior years. Voluntary support, as defined in *Gift Reporting Standards*, excludes income from endowment and other invested funds as well as all support received from federal, state, and local governments and their agencies; in editing the survey questionnaires, CFAE deleted all income from these sources when so identified by the reporting institution. Any enrollment figures not supplied by the colleges and universities were taken from the *Education Directory*, 1979-80, published by the National Center for Education Statistics, U.S. Department of Education.

Since 1965-66, the survey information has been processed by electronic computer, and most of the data supplied by the participating institutions have been stored on magnetic tape. The ready availability of this store of information makes it possible to undertake supplementary studies of educational philanthropy.

Back issues of the printed reports for the years since 1971-72 are available from the Council for Financial Aid to Education. The reports for all survey years prior to 1971-72 are now available on microfiche in complete sets and may be obtained from the Council for Advancement and Support of Education.

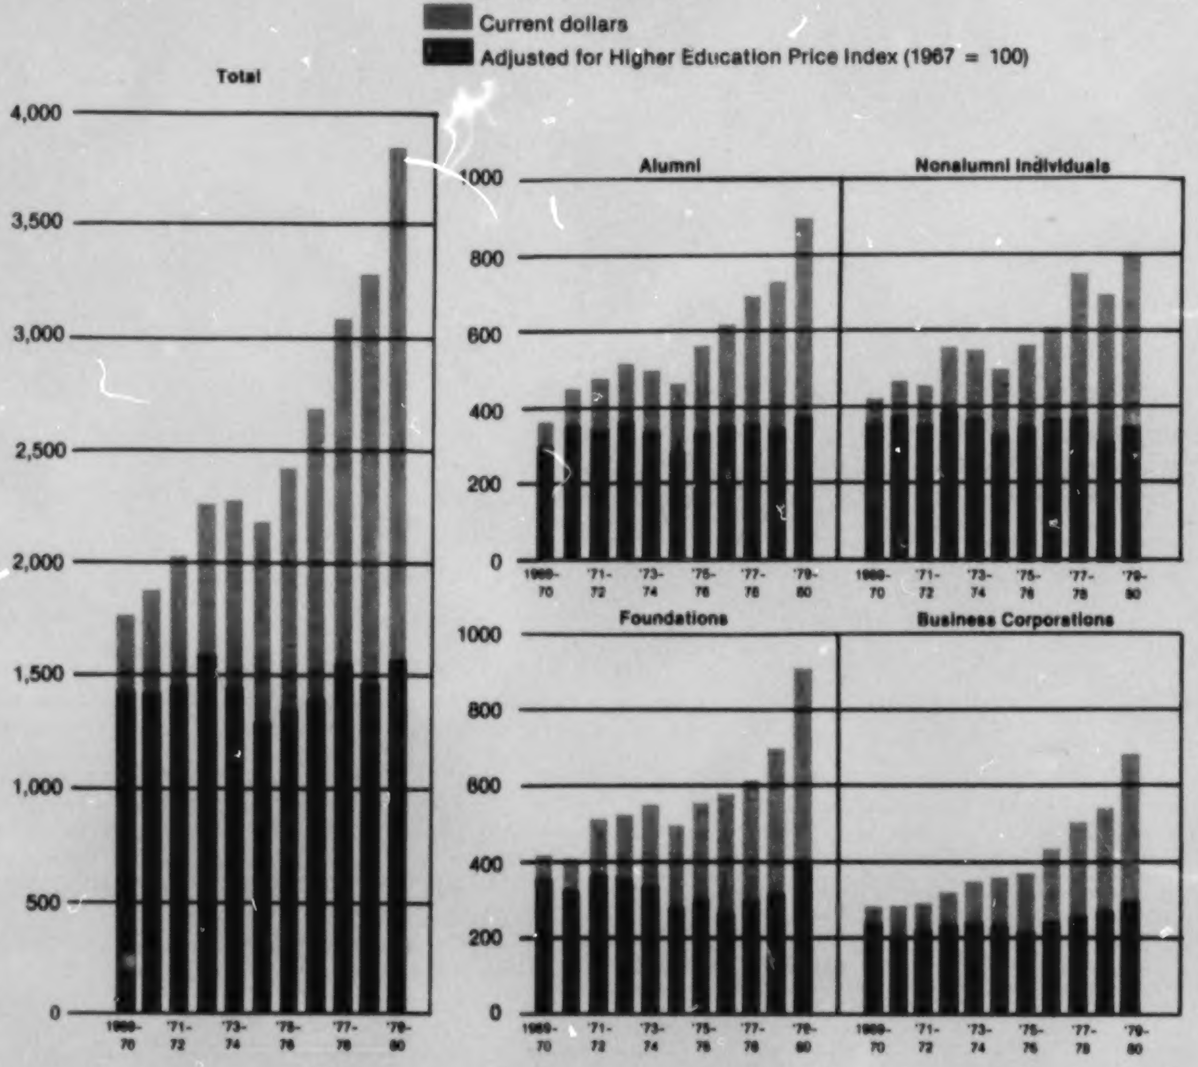
The following table summarizes participation in 1979-80.

	Four-Year Colleges and Universities	Two-Year Colleges	Private Precollege Schools	Total
Invited to participate	1,588	623	834	3,045
Completed and tabulated questionnaires	914	105	383	1,402
Not tabulated:				
Unable to participate	4	2	1	7
No support	—	8	—	8
Reporting too late or in totals only	14	—	1	15
Total response	932	115	385	1,432
Response rate	59%	18%	46%	47%
Total amount tabulated	$3,033,255,432	$21,797,160	$184,684,822	$3,239,737,414
Too late or in total only	$ 16,116,131	—	$ 152,395	$ 16,268,526
Total amount reported	$3,049,371,563	$21,797,160	$184,837,217	$3,256,005,940

To all those who filled out the questionnaires, to the institutions they represent, and to the cooperating associations in the educational community, CASE, CFAE, and NAIS express their gratitude.

Chart 1. Estimated Voluntary Support of Colleges and Universities by Major Sources and in Total

(millions of dollars)



I National Estimates

- Total voluntary support rose $570 million in 1979-80 to an estimated $3.8 billion
- The year-to-year growth of 17.6 percent outpaced inflation
- Business corporations contributed a record 18.3 percent of total voluntary support as a result of a 25.2 percent increase in their grants
- Funds contributed for maintenance of and addition to physical plant grew by 28.8 percent

Total estimated voluntary support rose by an extraordinary 17.6 percent in 1979-80, recovering from its relatively slow growth in 1978-79. An increase of $570 million, higher than that seen in any previous single year, pushed total voluntary support to an estimated $3.8 billion in 1979-80. About $105 million of this growth resulted from a nonrecurring transfer of funds from the Emily and Ernest Woodruff Fund, Inc., to Emory University for unrestricted endowment, but even without that special transaction the year-to-year increase was 14.6 percent—also of record proportions. Both the one-year and five-year growth rates outstripped inflation, whether gauged by the Consumer Price Index (CPI) or by the Higher Education Price Index (HEPI). In terms of real purchasing power for the higher education dollar, voluntary support increased 7 percent in 1979-80 and almost 23 percent in the five years since 1974-75.

By Source

The patterns of change among the various donor groups varied considerably (see Table 1). Business corporations registered a major increase, with a rise of an estimated $140 million, or 25.2 percent, in 1979-80 and a near doubling since 1974-75. These were the fastest one- and five-year growth rates experienced by any donor group. Corporate support thus reached an all-time high of 18.3 percent of voluntary support. Its relative importance has risen steadily since 1970-71, when it was 13.9 percent. This latest increase is further evidence that the business community has a strong and growing commitment to higher education.

Foundations ran close behind corporations in increasing their donations in 1979-80. When the nonrecurring transfer to Emory University is excluded, however, the percentage increase in their grants is more on the order of those by the two other major donor groups, alumni and nonalumni individuals. All three groups increased their contributions at a faster rate than inflation, although only alumni support has outstripped the growth of total voluntary support since 1974-75. Grants from religious denominations decreased in 1979-80 to the point where they now account for about 4 percent of all voluntary support, the culmination of a steady decline since 1957-58.

By Purpose

There were no decreases in the amounts contributed to various purpose categories in 1979-80. The Woodruff transfer meant that unrestricted monies grew faster than total support. Outside of this, the greatest growth was experienced by grants for physical plant, both in 1979-80 and in the five-year period beginning in 1974-75. Support for research has grown faster since 1974-75 than has total voluntary support, although its growth slowed markedly in 1979-80. Funds for student aid also grew faster than total support in 1979-80, but their five-year growth has been somewhat slower than the rise in total support.

Although contributions for current operations continue to be larger than those for capital purposes, capital funds grew faster, even without considering the Woodruff transaction. The upsurge in gifts for capital purposes resulted in part from the increase in both the number and the dollar goals of major fund drives in the last five years.[*]

*Includes nonrecurring transfer of $105 million from the Emily and Ernest Woodruff Fund, Inc., to Emory University for unrestricted endowment.

When voluntary support figures are adjusted for HEPI, it is obvious that support levels from most donor groups and for all purposes, as well as total voluntary support, are increasing in real terms. The only group showing a decrease in constant-dollar support of higher education is the religious denominations.

Economic Factors and Long-Term Perspective

Between 1974-75 and 1979-80 two developments held particular significance for voluntary support. Inflation accelerated to double-digit levels, and private support dollars experienced an unprecedented rise, greater than both inflation and the growth of the national economy. During this period voluntary support increased more than 75 percent, while inflation, as measured by the CPI, rose 50 percent and the gross national product expanded by 69 percent.

---

[*] The report on a special survey of major fund drives, conducted jointly by CFAE and the American Council on Education (ACE), has been completed and will be published by ACE.

1974-75 to 1979-80	2.6	8.4	7.4	8.5	5.8	−2.6	12.0	9.2	0.7	

Levels of voluntary support are tied into various aspects of the economy. The capacity and desire of individuals to make contributions, for example, is related not only to levels of personal income but also to tax laws and regulations. Corporate contributions and profits are related, even though grants may be distributed some time after profits are earned to allow for planning and decision-making. Foundation income is imperfectly related to return on investments in the form of dividend and interest income as well as to legal requirements concerning payouts.

Comparison of the available economic indicators to the giving patterns of donor groups, both between 1974-75 and 1979-80 and from 1978-79 to 1979-80, uncovers some striking patterns. With the exception only of the foundations, total voluntary support and gifts by specific donor groups rose faster than the growth in the economic measures associated with them.

Economic Indicators

In 1979-80, for example, total voluntary support rose 17.6 percent, while the gross national product expanded by 10.3 percent. Gifts from individual donors, exclusive of bequests and deferred gifts, grew 20 percent, while personal income increased only 12 percent. Corporate contributions rose by 25 percent against increases in pretax net income of 3.7 percent in 1979-80 and about 15 percent in both 1977-78 and 1978-79. Some of the gain in corporate giving came from business-sponsored foundations whose resources are called upon in years of low profits to stabilize contributions programs. Education is also rising as a proportion of total corporate giving. Foundations were the single variant. Dividend and interest income rose almost 20 percent while foundation grants (excluding the Woodruff transfer) increased about 15 percent. Clearly other factors affect the patterns of foundation giving to higher education.

When economic indicators and giving patterns are adjusted for inflation, the picture is the same. In 1967 dollars support from individual donors and corporations rose, while personal income and corporate pretax net income actually declined. Foundation grants, on the other hand, did not keep pace with the inflation-adjusted gains in dividend and interest income (again excluding the extraordinary transfer item). Thus inflation and giving patterns are related but do not move in perfect tandem.

Institutional Expenditures

Patterns of voluntary support are of only indirect concern to the economic health of higher education institutions. Of greatest importance are changes in enrollment and their consequent influence on the level of institutional expenditures. As shown in Table 2, total institutional expenditures and enrollment reached their peak growth rates in the late 1960s. They have continued growing since then but at slower rates. In contrast, expenditures per student in real terms have been declining at an accelerating rate since 1965-66.

The importance of voluntary support to institutional budgets has varied considerably over the years. During the late 1960s and early 1970s, in fact, voluntary support not only lagged behind the growth in institutional expenditures, its per-student contribution declined in both current and constant dollars. The last five years, however, have seen a dramatic turnaround. Enrollment and institutional expenditures have slowed in growth, and voluntary support has expanded at an accelerating rate. Its contribution on a per-student basis has thus been increasing actually and in real terms.

In the future it is likely that there will be additional pressures on institutional budgets. Enrollment is expected to remain stable, at best, or to decline. Government funding for student aid, research, and a variety of special programs is apparently slated for severe cuts. These developments could affect the number of students attending college, perhaps even more than demographic factors will, and constrict the ability of institutional budgets to cover basic costs. Continued inflation will cut into the real value of endowments at the same time that it pushes up institutional expenditures. Tuition increases can cover only part of budgetary shortfalls. Institutions will therefore have to seek increased private support. They will have to present their case effectively to potential donors if they are to get the help they need to maintain financial health and educational quality. Fortunately, many are already doing this, and the number is increasing.

II Survey Results

For 810 core institutions reporting in both 1978-79 and 1979-80:

- Total support grew 18.1 percent in contrast to the 6.1 percent gain reported for the core group in 1978-79
- Support for public four-year institutions increased faster in 1979-80 and since 1974-75 than support for private four-year colleges and universities
- Gifts from corporations increased 25.1 percent
- Support for physical plant maintenance and expansion rose 23.9 percent, more than for any of the other purposes

For all institutions reporting in 1979-80:

- The changes reported by all respondents are very similar to the patterns of the core group
- Bequests and deferred gifts declined in importance as sources of support from individuals
- The average alumnae gift to the annual fund at women's colleges increased by 14 percent in 1979-80 and has grown at a faster average annual rate since 1968-69 than for all other types of colleges

Year-to-year comparisons and analyses of trends for this survey are complicated by the changing number and composition of the respondents each year. Although many institutions participate every year, a large number reply only sporadically. Each year some drop out, and an almost equal number come in. Even though the numbers are similar, the composition of the sample can be quite different, so that the new responders can skew the results in unknown ways.

Two types of analysis have evolved in an attempt to develop meaningful comparisons. First, data about the core group of institutions responding to two successive surveys are compiled to show percentage changes between those two years, and to develop linkages for these changes over a period of several years.

Second, analysis of the reports from the total group of participants looks for variations from the patterns of the core group and charts trends in average support by type of institution and the distribution of support among the various sources and purposes. These approaches minimize the effect of different numbers of institutions in each survey year.

Table 3. Percentage Changes in Voluntary Support by Type of Institution (Core Group)*

Type of Institution	1975-76 v. 1974-75	1976-77 v. 1975-76	1977-78 v. 1976-77	1978-79 v. 1977-78	1979-80 v. 1978-79	1979-80 v. 1974-75
Private Universities	+10.9 (69)	+9.4 (71)	+14.5 (69)	+8.4 (70)	+20.6 (72)**	+81.6
Private Men's Colleges	+34.7 (13)	+5.3 (11)	+62.1 (8)	−11.8 (6)	−21.6 (6)	+58.9
Private Women's Colleges	+11.9 (75)	+3.2 (68)	+8.4 (67)	+7.3 (69)	+19.3 (68)	+60.2
Private Coeducational Colleges	+8.2 (389)	+17.9 (401)	+10.9 (397)	−1.4 (395)	+13.2 (392)	+57.9
Professional & Specialized Schools	+67.8 (39)	−17.1 (44)	+7.4 (50)	+15.3 (47)	+24.5 (44)	+114.4
Total Private Four-Year	+12.8 (585)	+10.1 (595)	+13.1 (591)	+4.9 (587)	+17.8 (582)	+73.6
Public Four-Year Institutions	+9.4 (163)	+17.1 (172)	+13.7 (169)	+9.9 (161)	+18.8 (175)	+90.2
Total Four-Year	+12.0 (748)	+11.8 (767)	+13.2 (760)	+6.2 (748)	+18.1 (757)	+77.8
Two-Year Institutions	+11.8 (63)	−0.1 (59)	+22.2 (62)	+1.0 (71)	+16.4 (53)	+60.4
GRAND TOTAL	+12.0 (811)	+11.7 (826)	+13.3 (822)	+6.1 (819)	+18.1 (810)	+77.6

*Technical Notes: Each of the percentages shown in the first five columns of this table reflects the year-to-year change in total voluntary support for a core group of institutions that participated in the Survey of Voluntary Support of Education in both of the two years indicated; the figures in parentheses are the numbers of institutions in these groups. The five-year percentage changes shown in the right-hand column were obtained by linking the five year-to-year changes for each class of institution.

The reliability of these estimates of the percentage change in voluntary support between 1974-75 and 1979-80 varies from one class of institution to another. In general, the larger the number of institutions in each year's core group in relation to the total number of institutions in that class, the more reliable the estimate.

**Includes $105 million nonrecurring transfer. See Table 1.

810 Institutions Reporting in Both Surveys

There were 810 institutions that replied in both 1978-79 and 1979-80 and thus constitute the core group. The gifts they reported were over 90 percent of all the private monies reported by all institutions in the two surveys, although the core colleges were only about 80 percent of the total number of respondents to each survey. These relationships have been fairly stable for the last several years.

By Type of Institution

Although the relative amounts of voluntary support received by each type of institution are interesting, the percentage changes in those amounts from year to year over a period of time are more important. Table 3 presents these changes from 1974-75. (1974-75 is used as the base year, since it was a low point from which steady growth in voluntary support has continued. See Appendix Table B for complete data).

As can be seen, overall growth has been somewhat erratic. It slowed between 1977-78 and 1978-79 and increased between 1978-79 and 1979-80. At the same time there are large variations in the year-to-year changes among the components of the total. Support for public four-year institutions has increased since 1975-76 at larger annual rates than has that for private four-year institutions. It has also outpaced support for all subgroups of institutions—except the professional and specialized schools—since 1974-75. Almost all types of institutions have experienced ups and downs in their yearly changes, with the private men's, professional and specialized, and two-year institutions showing the most erratic patterns.

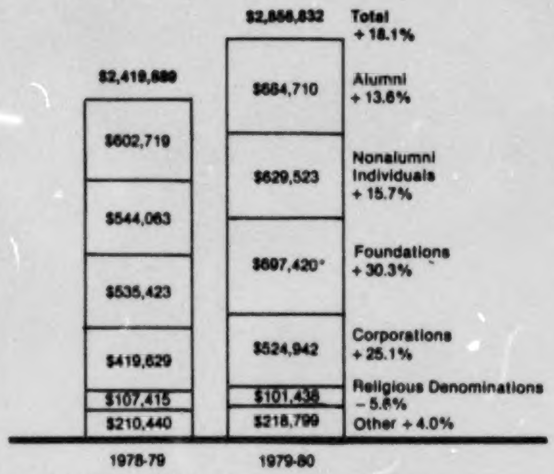
A doubling of bequests received by the professional and specialized schools, particularly at one institution, accounted for the extraordinary increase in their support in 1979-80. The women's colleges experienced a large increase in alumnae giving, which comprises almost half of their voluntary support. The public four-year institutions saw a 28 percent rise in gifts from corporations and individual donors, both alumni and nonalumni; these three groups contribute about two-thirds of the private support for these publicly controlled colleges.

By Source

The patterns of change among the various sources of support in 1979-80, as shown in Chart 2, are continuations of trends that have been developing in these surveys for the last decade. Corporate gifts were larger by a quarter in 1979-80 than in 1978-79, representing the largest year-to-year growth exhibited by any donor group with the exception of the foundations. The foun-

Chart 2. Voluntary Support by Source, 810 Institutions in Two Surveys

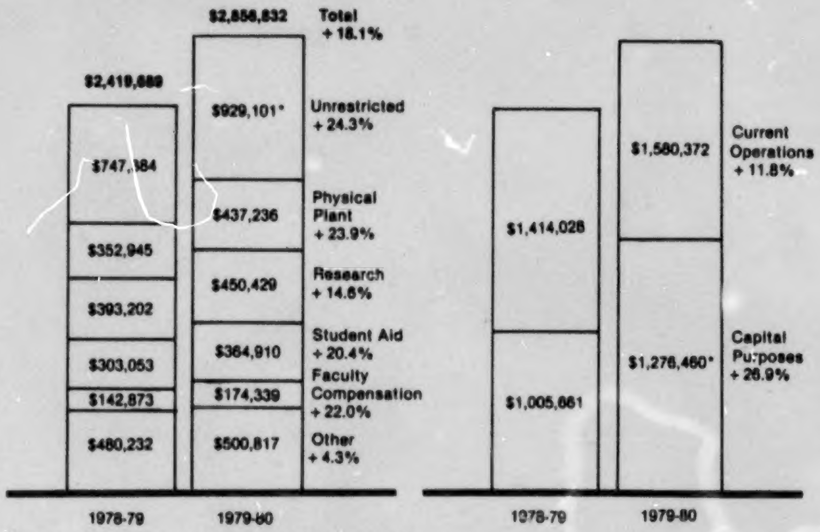
(dollars in thousands)



*Includes $105 million nonrecurring transfer. See Table 1.

Chart 3. Voluntary Support by Purpose, 810 Institutions in Two Surveys

(dollars in thousands)



*Includes $105 million nonrecurring transfer. See Table 1.

dation increase of 30.3 percent was swollen by the special transfer of funds to Emory University. Without this transaction the growth in foundation grants would have been 11.6 percent. Individual donors, who collectively provide the largest share of higher education's private support, increased their donations and bequests almost 15 percent. Support from religious denominations, on the other hand, declined, but they are only a minimal source of total voluntary support.

The largest percentage gain in corporate giving was reported by public institutions. Corporations also increased their grants to the professional and specialized schools, the women's colleges, and the private universities by large percentages. Alumni giving rose fastest at the private coeducational and women's institutions and at the publicly supported colleges and universities. Gifts from nonalumni individuals increased by the greatest percentages at the professional and specialized schools and at public institutions. A large bequest at one school resulted in the doubling of nonalumni bequests at the professional institutions. Increases in alumni gifts, on the other hand, showed almost the opposite pattern. They rose faster at the private women's and coeducational colleges and at the four-year public institutions than at the other types of institutions.

By Purpose

Chart 3 shows that contributions for unrestricted purposes increased 24.3 percent, faster than for any of the designated purposes either singly or collectively. If the large transfer to Emory University is excluded, however, unrestricted gifts increased at a more modest 11 percent, and gifts for all restricted purposes combined grew by a somewhat larger 15 percent. Much of this was fueled by large increases in gifts for maintenance and construction of physical plant and for faculty compensation. Despite the large increase in the latter, however, its relative importance in total voluntary support remains small.

There was extraordinary growth in capital support in 1979-80, much of it due to the Emory transfer. Excluding that, however, capital gifts rose faster than those for current operations (17 versus 12 percent). This pattern has been evident in the last several surveys. The fact that a large number of colleges and universities are now embarked on capital campaigns helps account for this growth.

Variations in these patterns show up when the data are broken out for the private and public four-year institutions. The most significant difference with respect to the private colleges is that the large increase in gifts for capital purposes raised total support above that for current operations. Even without the special Emory transfer, the private institutions reported that capital funds grew more than current funds.

Several interesting differences are seen with respect to the public institutions. Funds for both unrestricted and restricted uses rose equally, although those for unrestricted use are only a small part of total private support for these institutions. The most significant change in grants for specific purposes was a 26 percent increase in research funds. For the first time more than half of the total research support reported by a core group of institutions was channeled to public four-year colleges and universities.

It is also noteworthy that gifts for capital purposes at the public institutions grew faster than those for current operations, as was the case with the private institutions. Despite this increase, gifts for capital purposes remain only about half the size of those for current operations.

Table 4. Voluntary Support by Type of Institution (000 omitted)

Type of Institution	1978-79* No.	Amount	Average per Institution	1979-80 No.	Amount	Average per Institution	% Change in Average
Private Universities	73	$1,005,012	$13,767	74	$1,202,420**	$16,249**	+ 18.0
Private Men's Colleges	6	20,230	3,375	7	16,158	2,308	− 31.6
Private Women's Colleges	72	80,410	1,117	74	97,548	1,318	+ 18.0
Private Coeducational Colleges	450	621,747	1,382	473	732,832	1,549	+ 12.1
Professional & Specialized Schools	67	95,267	1,422	68	128,104	1,884	+ 32.4
Total Private Four-Year	688	$1,822,666	$ 2,729	696	$2,177,062	$ 3,128	+ 14.6
Public Four-Year Institutions	214	715,156	3,342	218	856,193	3,927	+ 17.5
Total Four-Year	882	$2,537,822	$ 2,877	914	$3,033,255	$ 3,319	+ 15.4
Two-Year Institutions	90	18,173	202	105	21,797	208	+ 3.0
GRAND TOTAL	972	$2,555,995	$ 2,630	1,019	$3,055,052	$ 2,998	+ 14.0

*Figures shown differ slightly from those published in the 1978-79 survey report; three institutions have been reclassified, and the amount of support reported by them in 1978-79 has been allocated to the class in which they reported in 1979-80.

**Includes $105 million nonrecurring transfer. See Table 1.

All Institutions Reporting in 1979-80

For the first time in the history of this survey, the total support reported by all participating institutions exceeded $3 billion, as shown in Table 4. The $3.055 billion reported in 1979-80 compares with the national estimate of $3.040 billion for all postsecondary institutions in 1977-78.

The averages per institution, although susceptible to some distortion because of variations in the composition of each group from year to year, changed in much the same way as the core institutions in the previous section. Some results do differ, however. Almost one third of the professional and specialized institutions, for example, were nonreporters in 1979-80, and they helped to raise the average gift for this group of institutions by 32.4 percent, as compared to the 24.5 increase for those in the core group. On the other hand, the new two-year college respondents, almost half of the total in 1979-80, produced a very small increase in average support per two-year institution, in contrast to the sizable increase in support seen for those in the core group.

By and large the other relationships are quite similar to those seen for the core institutions. The average amount of support for the public institutions was larger than that for the private institutions, and the dollar difference between the two is widening. Much of this is because the large state universities are a larger proportion of the public institutions reporting in the survey than the private universities are in the overall private group. The increase for all the private institutions masked large differences among the various types that are part of that group. The women's colleges continue to receive the lowest average support per school and the private universities the largest.

Table 5. Percentage of Voluntary Support by Source

Sources	1978-79 (972 inst.)	1979-80 (1,019 inst.)
Alumni	24.3	23.7
Nonalumni Individuals	22.8	22.2
Foundations	21.7	24.2*
Business Corporations	17.2	18.2
Religious Denominations	5.0	4.1
Other	9.0	7.6

*Includes $105 million nonrecurring transfer. See Table 1.

Table 6. Bequests and Deferred Giving as a % of Voluntary Support by Individuals

Year	Bequests	Deferred Giving
1969-70	27.3	5.0
1970-71	34.9	3.8
1971-72	32.0	6.4
1972-73	28.8	9.0
1973-74	32.2	6.9
1974-75	27.5	7.9
1975-76	30.8	6.3

1979-80	22.8	7.1

Table 7. Percentage of Voluntary Support by Purpose

Purposes	1978-79 (972 inst.)	1979-80 (1,019 inst.)
Unrestricted	31.5	33.4*
Physical Plant	14.4	15.7
Research	15.7	15.1
Student Aid	12.7	12.8
Faculty Compensation	6.0	5.9
Other	19.7	17.1
Current Operations	59.2	55.8
Capital Purposes	40.8	44.2*

*Includes $105 million nonrecurring transfer. See Table 1.

By Source

The relationships among sources of voluntary support as reported by all respondents in 1979-80 are quite similar to those seen in the analysis of the core responses, as seen in Table 5. Contributions from business corporations rose over $100 million and provided a record 18.2 percent of the gifts received by the total group of institutions. Indeed the business community was the only source that increased its relative share of total voluntary support. When foundation support is discounted for the Emory transfer its relative share remains the same as in 1978-79.

Although the greatest share of contributions from business corporations continued to go to private colleges and universities, a new high of 41 percent went to public four-year institutions. The foundations, in contrast, gave almost four-fifths of their grants to private institutions, and more than half of that went to the private universities. Private institutions received three-quarters of the gifts from individual donors, both alumni and nonalumni. It is interesting to note that most institutions reported larger gifts from alumni than from nonalumni individuals, with three exceptions—the coeducational colleges, the professional and specialized institutions, and the two-year colleges. This same relationship has existed in the last several surveys.

For the second year in a row bequests and deferred gifts declined as percentages of all gifts from individuals. Indeed Table 6 indicates that bequests were a smaller percentage of gifts from individuals than at any time in the last 11 years. They did, however, increase in 1979-80 at some institutions, namely, the women's colleges (up over one third), the coeducational colleges (up almost one third), and the professional and specialized schools (where they doubled). Both bequests and deferred gifts increased slightly in dollar totals, while their importance to overall voluntary support from individual donors decreased. Changes in the number and size of bequests from year to year are random.

By Purpose

The relative importance of the purposes for which gifts were given did not change much from 1978-79 to 1979-80. (See Table 7.) These proportional relationships have been quite stable since 1974-75.

At the same time interesting differences crop up when the patterns at private and public four-year institutions are examined. At least three times as much money went to private institutions for unrestricted use, physical plant, and faculty compensation as was given to public institutions. Public institutions, on the other hand, received fairly sizable proportions of their total contributions for research, student aid, and "other" undefined but restricted purposes. Indeed, over 55 per-

Technical Notes:

A. In the listing on the following pages, Column 22 does not purport to show the total operating expenditures of the reporting institutions; it excludes the operating costs of dormitories, dining halls, student stores, and other "auxiliary enterprises" as well as all outlays of a capital nature.

B. In some instances the number of institutions listed is greater than the number tabulated, for two reasons: (1) some multicampus institutions are shown in summary as well as in detail and (2) some of the component professional schools of major institutions are also listed separately.

(Continued from page 10)

cent of the private monies for research went to public institutions. The bulk of the research grants to private institutions went to the 74 universities.

The proportion of support for current operations dropped in 1979-80, mainly because of the large transfer of funds to Emory University's unrestricted endowment. Without this increase the change in proportion would not have been as pronounced, but it would have been there nevertheless. The flow of funds to current operations has been decreasing slowly but steadily since 1974-75, when 61 percent of support was for current use. As in the past, the private institutions received almost four times as much for capital purposes as did the public institutions.

The Annual Fund

Alumni contributions are a large source of voluntary support, and the annual fund is an important and growing channel for these gifts. The effectiveness of annual fund solicitation is at a 12-year high. Table 8 shows that since 1968-69 the number of donors has grown by a factor of about two thirds, which is an average annual increase of 4.5 percent. The reported amount of alumni contributions to the annual fund has almost tripled, for a compound growth rate of 10 percent, and the average size of the individual gift has risen about 5 percent a year. The share of all alumni contributions that is funneled through the annual fund has hovered around 41 percent for the last five years, having risen from a low point of 29.9 percent in 1968-69.

The aggregate results, however, mask wide differences in solicitation effectiveness and size of average gift among the various types of institutions. Table 9 shows the changes in these data from 1968-69 to 1979-80. For the first time in several years, the average gift to the women's colleges was larger in 1979-80 than to the men's colleges and almost as large as that to the private universities. The average annual growth in gift size to the women's colleges since 1968-69 has been greater than that for any other group of institutions, a phenomenon that may be linked to the increased earnings of women college graduates.

Table 8. Alumni Support of Colleges and Universities and the Annual Fund

Year	Institutions Reporting	Number of Alumni Donors to Annual Fund	Alumni Gifts to Annual Fund	Average Gift	Solicitation Effectiveness	Total Alumni Support

PRIVATE SECONDARY AND ELEMENTARY SCHOOLS

Survey Results

- The 383 participating schools in 1979-80 received $184.7 million. Average support of $482,206 was up 12.6 percent over the $428,061 average for the 368 schools reporting in 1978-79
- The year-to-year increase in total support for the 278 schools in two surveys was 7.9 percent, not enough to keep up with inflation
- Percentage changes varied widely by donor type and purpose

The 383 schools responding to the 1979-80 survey reported receiving $184.7 million. This averaged out to $482,206 per school, a 12.6 percent increase over the average for each of the 368 participants in 1978-79. Since both the size of the group and its composition were different in the two reporting years, it is more useful to analyze changes and trends for the core group of schools that responded to both surveys.

These 278 core schools received about 80 percent of the total support reported by all the respondents and comprised 73 percent of the total number of schools reporting in 1979-80. Despite a 32.4 percent rise in corporate gifts, the results present a somewhat less than rosy picture. Total support rose 7.9 percent; this increase, like that in 1978-79, was not enough to keep up with inflation. Three-quarters of total support came from alumni and nonalumni individuals, who increased their gifts by 10.4 and 8.3 percent respectively. Foundation gifts, the other major source of support, decreased by 4.1 percent. Only the business corporations outstripped inflation, with a repeat of the 32.4 percent increase in their contributions reported in the 1978-79 survey. Over the years, however, corporate gifts have been only a small portion of the total gifts received by the independent schools. (See Table 10 for the trends in corporate support of independent schools since 1969-70.)

The annual fund continued to be effective, receiving gifts from about 25 percent of alumni solicited. The average gift grew by 9.6 percent to a new high of $104.59. Part of the reason for the decline in total support from individuals was a decrease in bequests and deferred gifts, from almost 9 percent of total support in 1978-79 to 8 percent in 1979-80, despite the increase in number of respondents. As a result, bequests and deferred gifts were a smaller proportion of gifts from individuals than in 1978-79.

Analysis of changes in the purposes for which contributions to the core schools were made presents a mixed picture. Unrestricted gifts, as well as those for student aid and faculty compensation, increased at a rate that approximated or bettered inflation. The increase in unrestricted funds was of some importance, since historically more than half of the funds raised by the independent schools have been for unrestricted purposes. Grants for physical plant, usually about 20-25 percent of total support, declined by 8.8 percent. Contributions for capital purposes increased only moderately, while those for current operations, although smaller than those for capital as a proportion of total support, increased faster than inflation.

Table 10. Corporate Support of Independent Schools as a % of Total Voluntary Support

Year	Number of Schools Reporting	Total Corporate Support	Corporate Matching Gifts
1969-70	321	2.4	0.7

GRAND TOTAL (1,088)	$3,005,329,518 (+17.5)	$739,898,938 (+13.4)	$686,093,931 (+15.1)	$723,471,875 (+28.6)	$529,907,969 (+25.2)	$102,690,464 (−5.0)	$223,266,341 (+4.2)

Note: The year-to-year changes shown in this table are not all of equal significance. The total amount reported by any one class of institution from any one class of donor is subject to erratic behavior due to major fund-raising drives, the timing of corporate and foundation programs, large bequests and other non-recurring influences. This is particularly true of the smaller groups of institutions and the smaller dollar figures.

*Includes $105 million nonrecurring transfer. See Appendix Table A.

*Includes approximately $200 million of faculty salary endowment grants from The Ford Foundation.
**Includes $105 million nonrecurring transfer. See Appendix Table A.

Colleges and Universities Reporting the Highest Totals

The 20 Colleges and Universities Reporting the Highest Totals of Voluntary Support:

Emory University	$115,592,443
Harvard University	76,179,576
California, University of (System)	74,972,959
Texas, University of (System)	60,722,404
Stanford University	60,122,303
Yale University	59,649,269
Pennsylvania, University of	49,129,330
Cornell University	46,288,245
Southern California, University of	42,234,069
Minnesota, University of	40,568,067
Columbia University	38,107,255
Massachusetts Institute of Technology	38,057,635
Michigan, University of	33,874,620
Chicago, University of	33,740,660
Princeton University	32,686,791
Dartmouth College	31,567,563
Wisconsin, University of—Madison	31,125,650
Northwestern University	31,035,653
Case Western Reserve University	29,173,909
Johns Hopkins University	28,960,335

The 20 Colleges and Universities Reporting the Highest Totals of Corporate Support:

California, University of (System)	$15,006,892
Massachusetts Institute of Technology	14,045,053
Michigan, University of	13,778,250
Illinois, University of	12,675,620
Harvard University	12,405,714
Texas, University of (System)	11,279,957
Stanford University	10,996,496
Georgia, University of	10,983,629
Tennessee, University of	9,453,399
Columbia University	7,791,954
Pennsylvania, University of	7,738,628
Arizona, University of	7,624,192
Texas A & M University	7,146,464
Wisconsin, University of—Madison	7,145,008
Washington, University of	6,820,691
Southern California, University of	6,120,221
Cornell University	5,810,056
Michigan State University	5,613,578
Yale University	5,277,317
Chicago, University of	5,265,236
